FREEDOM OF CONSCIENCE

Demanded by Portuguese.

Freethinkers from all political parties of Portugul, represented by a large committee, on August 3rd presented to the Cortes a petition for the suppression of the religious orders in Portugal and the abrogation of the existing laws against freedom of con. science. The committee was accompanied to the Houses of Parliament by an immense crowd, and wild scenes ensued. Among "other things, the petitioners asked for the abrogation of the new law permitting religious associations to acquire land property, a procedure which up to the present time has been illegal. Senor Camacho moved the consideration of the subject, and when the motion was voted down the galleries broke out in protestation. There was considerable violence on the floor of the House. The deputies engaged in a struggle, in which deaks and chairs were overturned, and the Chamber had to be cleared twice, while the tumult was continued in the streets; without serious results

CHINA LIGHT AND POWER COMPANY, LTD.

The report for presentation to the shareholders of the above company at the eighth ordinary general meeting to be held at the office of the general managers, Mesars Shewan Tomes and Co., on Saturday, 11th September, at noon, states :-

The balance at credit of Profit and Loss Account is \$448,483.42, which it is proposed to deal with as follows, viz.; - To place to Reserve Fund \$400,000.000, and carry forward to next account \$46,483.42. The concession for lighting Canton together with the Factury, property and material there, was sold to the Ta Ching Kwang Tung Electric Supply Co., for 21,330,000,00. Payment was completed on 31st July, to which date the prosent accounts are made up.

It is obvious from comparing the figures of the last account with those now laid before you that, owing to circumstances beyond our control, we were losing ground at Canton and, in view of this and other considerations, we decided to avail ourselves of the opportunity of disposing of this branch of the business at what'we consider a fair price. We shall now have to devote all our attention to the development of the

Kowloon Factory. Capital.—It is not proposed to pay dividend but to make a return of capital to the extent of \$5.00 per share, or \$500,000.00 out of fund- in hand, but this cannot be done until the necessary resolutions, which are now being drawn up, have been passed and the consent of the Court obtained.

Consulting Committee .- In accordance with the Articles of Association Sir Paul Chater, C.M.G., Dr. J W. Noble, and H. P. White Esq. retire but offer themselves for re-election.

Auditors.-The accounts have been audited by Mosers W. H. Potts and A. O D. Gourdin, who are recommended for re-electión.

Says the London correspondent of the "New York Herald :- A story that became public about a prospective betroths between Princess Alexandra of Fife and King Martiel of Portugal was, I under stand, something more than mere rumour. But the idea was very soverely discountenanced in Court circles. The main difficulty was that the Princess would have to enter the Roman Catholic Church, and for all English princesses who are what dynastic juriste have called eben burtigotherwise of unblemished royal blood that is an insurmountable obstacle. King Edward is known to attach great importance to this consideration. The precedent of Queen Victoria of Spain seems at first sight to tell against this argument, but as a matter of fact, the Battenbergs are not held to be eben burtig in a strict sense, owing to the morganatic moriein of their father. It is the same with the Tocks. Whother, strictly speaking, Princess Alexandra of Fife is eben burtis may be open to question, for her father does not enjoy that privilege here. How. ever, the view of the King prevails over themubileties of jurists, Princess Alexandra is his sidest granddaughter, and that subject for him.

CONTESSIONS OF AN ANGLO-INDIAN BABY.

April 22nd, 9.10 p.m.—Am born. Seems good deal of fuss and plenty of excitable people in the world. Saw the nurse. Ha! Heard the doctor say I had a fine chest and brown oyes. What's it matter to him? And they are blue. Phoo! Wont to alcop. April 23rd. - Saw my mother. H'me! Had an interview with the nyah-funny old thing in a white cloth and a nose ring. How badly they manage these matters. Saw my father. Hump Food deesn't agree with or please (which is the same thing) me. Told 'env so. They gave me more. Told om so again. How doned these creatures are. They left off giving me any. Told 'em they were idiots. Kept telling them. It was I a.m. At 9 got something to drink. Took it-nothing else to take ; but what a taste these giants have in drinks. I'll teach 'em presently. Just now only able to keep them fussing and worrying till five o'clock and daybreak. Father very prominent in the fuss and worry. Understand it's his first appearancoin the character of father. It is tipped him the Masonic wink of Babydom, and asked him how affairs marched. He said rather slow till you could crawl and grab, but a good deal could be managed by an inventive mind on spasms and a strong voice in squalls... Asked how he liked his food. Said he got filled up every day with rice; when the string burst they left off filling. So it isn't merely fashion after all. Asked me what made my hands and face reddish-white. He couldn't see the rest of me, and thought my body was black. Tlet him (doesn't do to be peculiar), and said my father and mother were to blame. He said (truly) the amount of teaching parents need before they are capable of comprehending the simplest fact about food was monstrous. It is; and their ideas on sleen are disgusting-only adaptable to dormice. We should have doubtless arrived at other conclusions profitable to this benighted earth, if his father, the cook, hadn't carried him off, and my father, the sahib, hadn't demanded what all the servants were doing unstairs, and where his meal was. L. CI pressed my opinion of this infamous and ungentlemanly interruption forcibly for half an hour. Should have continued longer, but don't wish to injure capacity of

This is sheer cruelty, because I have no neck to which clothes can be tied. It struck on somehow, and I said what I thought about it, and the nurse, and the synb, and the people: "What fine lungs !" said a fat old woman in a blue gown and an eyeglass. "Lungs: !" Good gracious! Haven't they sense enough. to know it is pure voice and ability to strike a high keynote? Her lungs must have been curious her voice was like cutton-wool." They all stared at me, and kinsed me, and wondered at my arms and legs. Yet these appendages are usual in habies, I believe. RAMBLING NOTES.

Fire, storm and carbiquake have been playing sad havor with Japan this summer, and several Honglong folk who went up there for their holidays are saying that we who stayed behind and stuck to our work have had the best of it. "I quite believe them. There's nothing to beat the comforts of home no matter where the household gods are set up, and holidays as a rule are a weariness and a disillusion.

All the same how eagarly we do look forward to the chance of lifting our noses off the grindstone and what inconveniences and discomforts we will chesrfully endure during the continuance of our so-called holidays ! "All work and no play, makes Jack a dull boy," is a couplet believed in by nearly everybody these days.

The pile of medical reports laid on the table at the meeting of the Legislative Council on Friday remimds me that President Shipley, F.R.S., of the Association of Economic Biologists, challenges the, view that the human vermiform appendix is both useless and vanishing, while Prof. Wm. Osler says that the appendix has been much maligned. Even laymon are aware that there has been a considerable reaction from the craze for operations for appendicitie of a few years ago. It is quite probable that science will yet vindicate the appendix, and perhaps invent some nice little job

I do not ask my readers to believe it but the following tale is vouched for to me on the authority of a very worthy member of the garrison. A company of an infantry battalion was sent on detachment to a remote village in Ireland, to be stationed there for some months. During this period copies of regimental orders of a permanent nature were forwarded to the officer commanding the detachment in the usual manner. One of these read; "All men in the battaken shall change their shirts at least twice a week," and the captain gave directions to the colour-sergeant to see this order carried out. "But. sir," said the colour-sergeant, "there's only a shirt spiece to every man in the company. How can they?" "I be affected." What it is crying about I don't don't care a rap," retorted the captain, "orders are orders, colour-sergesatt. Let the men change shirts with one another." And so they did, every Wednesday and Saturday. As I said before, you can believe it if you like.

Four Children Suffered a Year with Terrible Ringworm - Hair All Came Out in Patches Leaving Scalp Dry and Scaly - Graw. Worse Under Various Treatments.

"CURED BY TWO SETS OF CUTICURA

"About eighteen months ago my four children had ringworms on the body and head. They were under the dootor's care over three months without any antiafactory result; in fact they got.
worse. Then we tried several other
so-called remedies without effect. All the hair came off in patches and left the scalp dry and scaly. They were in a dreadful state. At last a friend persuaded me to try the Cutiours Remedies. I used the complete treatment, Cuticura Soap, Ointment and Resolve-I finished the second lot they were completely cured. Now they have beautiful heads of hair, soft and glossy. I still continue to use the Cuticura Boap. which I find much superior to all other caps for the head and skin. My children had been suffering nearly twelve months: before I tried the Cuticura Remedies and I shall slways recommend them to others. Edward S. Walker, 67, Oxford St., Loughbore, Loloester, Eng., Dec. 6, 1908."
